The aim of this program is to further support our higher level riders by targeting horses within our current herd that could be training, developing improved capabilities and possibly competing in different disciplines.

The workshop will consist of 8 riding sessions together with theory and planning sessions over the 4 days. The workshop will also deliver training schedules, competition targets, feeding regimes if applicable depending on the discipline chosen for each horse, and any other requirements of the horse/rider. These tools can be used by the horse/rider combination after the workshop.
